

FOR IMMEDIATE RELEASE

Aprima and CyTek Corporation Partner to Provide Electronic Health Records to Physician Practices

CyTek Corp to provide Aprima EHR/PM solutions to Missouri and Kansas medical practitioners

DALLAS, TX – March 24, 2010 – [Aprima Medical Software](#), a leading developer of electronic health record (EHR), practice management (PM) and revenue cycle management solutions for medical practices, today announced a value-added reseller agreement with CyTek Corporation, a full-service system integrator providing on-site and remote support for clients in Missouri and Kansas.

"Aprima's software fits well with CyTek's approach to provide the best solution for our clients," says Mike Magee, Vice-President of CyTek. "After researching the different companies and software offerings in the medical market, we felt that Aprima was clearly the best choice for our clients based on the architecture of its database, features and pricing."

CyTek provides a wide range of services including: on-site technician visits, remote support, off-site backup, network design and system configuration. Recognized as one of the top computer system integrators in Kansas City, CyTek is committed to providing high-quality service and high-value software and hardware.

"We're proud of our ability to work with clients to communicate and organize the often confusing elements of office technology into a productive system," adds Dan Boos, Senior Systems Consultant. "CyTek's experience in working with medical offices combined with the support from Aprima creates a winning combination for practices looking to implement an EHR or PM system."

"CyTek has existing physician clients in the region and a strong commitment to grow that part of its business," said Michael Nissenbaum, CEO of Aprima. "Its long standing relationships with hardware technology manufacturers has earned it a high level of respect in the marketplace. Additionally, we found that the Aprima and CyTek corporate cultures were very similar. It is apparent that we share the same vision, values and dedication to customer service."

The partnership was finalized in January of this year.
