

Aprima and NoteSwift Announce Partnership and Distribution Agreement

NoteSwift for Aprima Saves Physicians Hours of Time Each Week

Dallas, TX and Atlanta, GA, September 9, 2013 – Aprima Medical Software and NoteSwift LLC announced today a joint partnership, making NoteSwift available to Aprima users. The newest version of NoteSwift is seamlessly integrated and fully supports the Aprima EHR system. NoteSwift for Aprima electronic health record (EHR) works with Dragon Medical Practice Edition from Nuance to take speech recognition to the next level of efficiency by saving physicians hours of time each week.

NoteSwift for Aprima helps the practitioner capture the patient visit, expedite the documentation process and can reduce pointing and clicking by up to 75%.

“We are excited to partner with Aprima, one of the best designed and easiest to use EHRs in the market with an expansive customer base that appreciates value added solutions,” said Chris Russell, MD and founder of NoteSwift. “The partnership will enable us to jointly go to market and leverage their expertise to bring speech recognition solutions to their customers.”

NoteSwift for Aprima key features include:

- **Structured Data Entry** – NoteSwift captures medications and allergies as searchable, structured data. Aprima’s internal E&M coding algorithms continue to work, unlike many systems where speech recognition benefits can be offset by extra work required to go back and manually code visits.
- **Seamless Navigation** – NoteSwift enables fast, seamless progression through records with virtually no manual intervention.
- **Integration with Aprima** – NoteSwift seamlessly interacts with Aprima to make lookups and searches within the patient record faster and easier.

“Helping our users increase their productivity is something we continue to strive for,” says Mark Richards, senior vice president of sales and marketing for Aprima. “NoteSwift increases the efficiency of using Dragon Medical Practice Edition in Aprima. We believe that adding NoteSwift to our portfolio will be a great benefit to many of our customers.”

NoteSwift for Aprima is available immediately directly from Aprima. More information about NoteSwift for Aprima can be found at www.aprima.com/partners/noteswift/noteswift-details/ or www.noteswift.com or via email to info@aprima.com or info@noteswift.com.
