

Aprima Named One of the Fastest-Growing Companies in North Texas

Dallas, TX (September 2, 2011) — Aprima Medical Software was named a Fast Tech Award recipient on Friday, August 26, at the Metroplex Technology Business Council's Tech Titans Awards Gala. The award presentation – sponsored by TravisWolff LLP, Comerica Bank, and the *Dallas Business Journal* – revealed the list of the 35 companies.

Michael Nissenbaum, Aprima CEO, said, "We are pleased to announce that Aprima's growth from 2008 to 2010 placed our company on the list of fast-growth tech companies. The healthcare marketplace is noticing Aprima's increasing momentum, and we're very happy to receive this recognition from the larger business community. We're very excited and honored to be included in an elite group of achievers that includes companies like Texas Instruments and looking ahead we fully expect to be on this list again in 2012."

In its 11th year, the Fast Tech Award honors the fastest growing technology, media, telecommunications, life sciences, and clean technology companies in the Dallas-Fort Worth Metroplex, based on revenue growth from 2008 to 2010. The ranking is compiled from nominations submitted directly to the Metroplex Technology Business Council (MTBC) and through independent research using publicly available information conducted by the MTBC, TravisWolff, LLP, and Comerica Bank.

Aprima Medical Software products include a fully integrated Electronic Health Records (EHR) and Practice Management (PM) system as well as a Revenue Cycle Management (RCM) service to help practices maximize reimbursement and minimize payment time. The user-friendly Aprima EHR is chief-complaint-driven and offers adaptive learning capability based on each provider's habits. The comprehensive intuitive knowledge base quickly displays appropriate content based on the presenting chief complaint, speeding up the physician's documentation. Aprima's robust PM software includes all the tools a busy practice requires to manage its patient population, including insurance eligibility, optical character recognition for automating data input, and built-in reporting capabilities, using Microsoft Reporting Services. The Aprima 2011 EHR is CCHIT-certified,* enabling providers to be eligible for federal ARRA funding for Meaningful Use of an EHR.

“At the MTBC, we keep our finger on the pulse of what is happening in the tech industry in North Texas,” said Bill Sproull, president and CEO of the MTBC. “These fast growing companies are what make our technology industry so vibrant...keep your eyes on them!”

About Aprima Medical Software, Inc.

Aprima Medical Software, Inc., provides innovative electronic health record, practice management and revenue cycle management solutions for medical practices. The Aprima EHR+PM is an integrated system built on a single database. Aprima uses a fast, flexible design that adapts automatically to a physician’s workflow and sets the benchmark for ease of use, speed and flexibility. Based in Carrollton, TX, Aprima performs all development, support, and implementation from the U.S. To learn more about how Aprima can help your practice, please visit www.aprima.com, call us at 866-960-6890, option 7, or email us at info@aprima.com.

About Metroplex Technology Business Council

The Metroplex Technology Business Council (MTBC) is the innovation hub for North Texas’ technology community and actively connects entrepreneurs, universities and corporations for significant technological advancements. Founded in 1994 as a non-profit organization with approximately 300 members, it includes technology businesses and providers from across the DFW Metroplex. The MTBC is a TITAN, focused on growing Talent, Innovation, Tech Titans, Advocacy and Networking. It promotes the Dallas region as the center of cloud computing and fosters a culture of innovation among major technology companies in the region. Events include monthly Tech Industry Luncheons, Cloud Computing Special Interest Group Events, CEO Forums, Tech Week in Austin and the annual Tech Titans Awards Gala event. More information about MTBC can be found online by visiting www.metroplextbc.org.
